22850	7590	07/13/2004	EXAMINER	
OBLON, SPIVAK, MCCLELLAND, MAIER & NEUSTADT, P.C. 1940 DUKE STREET ALEXANDRIA, VA 22314			WEGERT, SANDRA L	
			ART UNIT	PAPER NUMBER
			1647	

DATE MAILED: 07/13/2004

Please find below and/or attached an Office communication concerning this application or proceeding.

<b>Office Action Summary</b>	<b>Application No.</b>	<b>Applicant(s)</b>	
	10/024,535	MARCEL ET AL.	
	<b>Examiner</b>	<b>Art Unit</b>	
	Sandra Wegert	1647	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 16 December 2003.
- 2a) ☐ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 1-50 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☐ Claim(s) \_\_\_\_\_ is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☒ Claim(s) 1-50 are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
     Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
     Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  
     a) ☐ All    b) ☐ Some \* c) ☐ None of:  
         1. ☐ Certified copies of the priority documents have been received.  
         2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.  
         3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).  
     \* See the attached detailed Office action for a list of the certified copies not received.

**Elections/Restrictions**

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20 and 22, drawn to a method of treating a disease by administering a ligand, classified in class 514, subclass 2+.
- II. Claims 21 and 22, drawn to a method of treating a disease by administering two ligands that act synergistically, classified in class 530, subclass 300+.
- III. Claim 37-50, drawn to a method of preparing a medicament, classified in class 530, subclass 333+.

Furthermore, under 35 U.S.C. 121, restriction to a single invention is required, from the following:

- a) an avoidance disorder,
- b) a decreased awareness disorder,
- c) an autistic disorder,
- d) schizophrenia,
- e) an attention deficit/hyperactivity disorder,
- f) an arousal disorder,
- g) hospitalism,
- h) decreased interest in the environment,
- i) impaired interpersonal functioning,
- j) impaired relationship to the external world,

Art Unit: 1647

- k) schizoid personality disorder,
- l) a depressive disorder,
- m) schizophrenia,
- n) a mood disorder
- o) impaired social activity linked to sexuality,
- p) untimely ejaculation,
- q) hypoactive sexual desire disorder,
- r) simple phobia,
- s) social phobia,
- t) obsessive-compulsive disorder,
- u) acute stress disorder, or
- v) a mental disorder related to a pain disorder,

Furthermore, under 35 U.S.C. 121, restriction to a single invention is required, from the following:

- a) SEQ ID NO: 1,
- b) SEQ ID NO: 2,
- c) SEQ ID NO: 3,
- d) SEQ ID NO: 4,
- e) SEQ ID NO: 5,
- f) SEQ ID NO: 6,

- g) SEQ ID NO: 7,
- h) SEQ ID NO: 8,
- i) SEQ ID NO: 9, or
- j) SEQ ID NO: 10.

The inventions are distinct, each from the other because of the following reasons:

Although there are no provisions under the section for “Relationship of Inventions” in M.P.E.P. § 806.05 for Inventive Groups that are directed to different products, restriction is deemed to be proper because these products constitute patentably distinct inventions for the following reasons:

The methods of Inventions I-III are independent and distinct, each from the other, because the methods are practiced with materially different process steps for materially different purposes and each method requires a non-coextensive search because of different starting materials, process steps and goals. A method of treating a subject is different depending on the subject's disorder because the disorders have different underlying etiologies and therefore require different treatment protocols. Each disorder requires different treating personnel and different drugs, equipment, and diagnostic tools. In addition, a method of treating a disease with compounds that act synergistically has different underlying etiologies a method that uses one compound. A method of preparing a medicament uses quite different equipment and personnel than a method of treatment and, likewise, uses different personnel and steps.

Furthermore, Each disorder (a) – (v) represents a patentably distinct inventive Group. Groups (a) through (v) are independent and distinct, each from the other, because they have different underlying etiologies, different treating personnel, different diagnostic criteria, and require completely different search terms, starting points and strategies.

Furthermore, each set of sequences (a) – (j) represents a patentably distinct invention. Groups (a) through (j) are independent and distinct, each from the other, because they have different putative functions, different structures, and require completely different search algorithms, starting points and strategies.

Because these inventions are distinct for the reasons given above and the search required for each group is unique, and because disorder and each peptide requires a completely separate search, as well as by their divergent subject matter and different search requirements, restriction for examination purposes as indicated is proper.

In response to this requirement, applicants must elect from Inventions I, II or III, and must additionally elect a *disorder* and a polypeptide *sequence*. Applicant is advised that in order for the reply to this requirement to be complete it must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(i).

Art Unit: 1647

**Advisory information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sandra Wegert whose telephone number is (571) 272-0895. The examiner can normally be reached Monday - Friday from 9:00 AM to 5:00 PM (Eastern Time). If attempts to reach the examiner by telephone are unsuccessful, the Examiner's supervisor, Brenda Brumback, can be reached at (571) 272-0961.

The fax number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
